WonderArts Documentary Winter Film Series

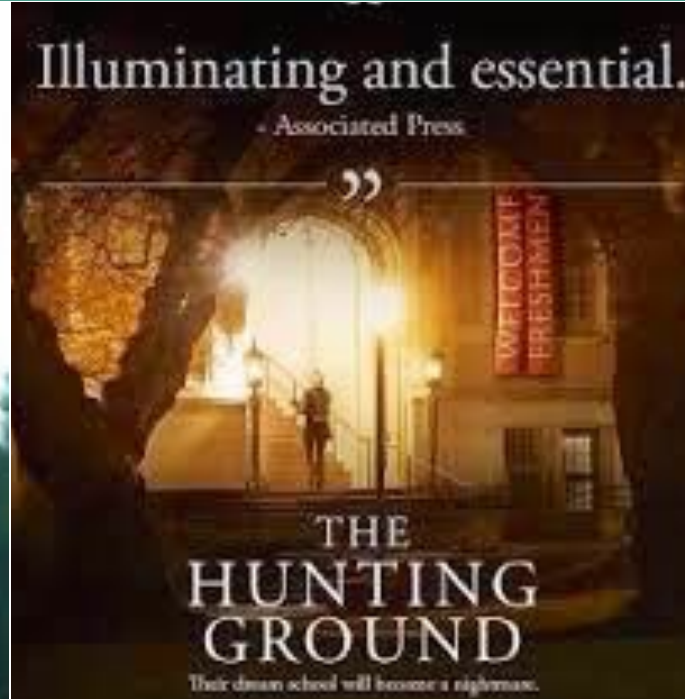

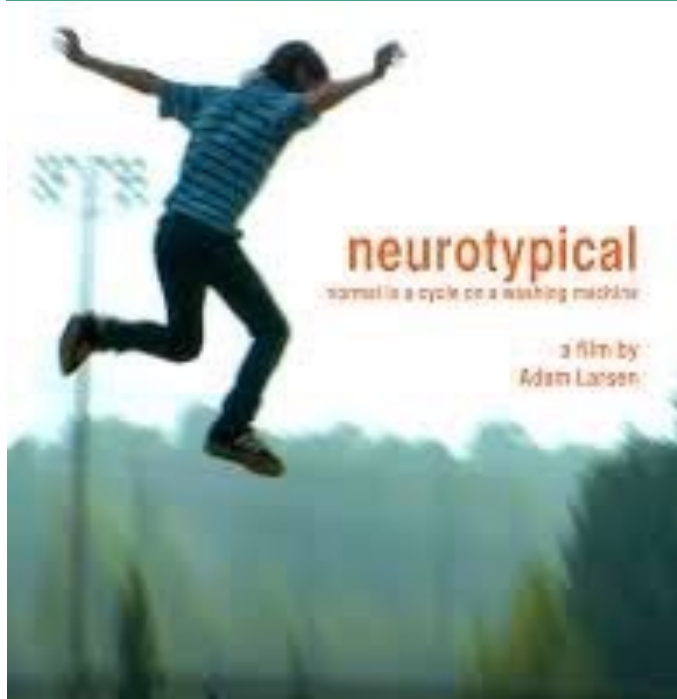

WonderArts is pleased to be presenting relevant documentary films through the series In Focus and Let's Talk. In Focus addresses what is happening to Earth's ice, snow and water as weather patterns become more extreme. Let's Talk looks at our society through the lens of safety, health, and social justice. Local experts and community leaders facilitate post-film community conversations that provide the tools and understanding for how to create positive change in our community through education, outreach, and action.

Recommended Donation for Films: \$5

Films are sponsored in part by the New England Grassroots Environment Fund and Local Businesses. Films are held in partnership with the Craftsbury Outdoor Center, Vermont PBS, Highland Center for the Arts, and Sterling College.
