

SUSTAINABILITY AND SOUP

a film + discussion series

Join **WonderArts VT** and the **Craftsbury Outdoor Center** for a special documentary series about climate change with a focus on food, energy and waste. Shifting away from the traditional doom and gloom narrative, these films highlight actionable steps through personal journeys towards a more sustainable future. Come early to enjoy a bowl of soup and stick around after the film for a casual group discussion.

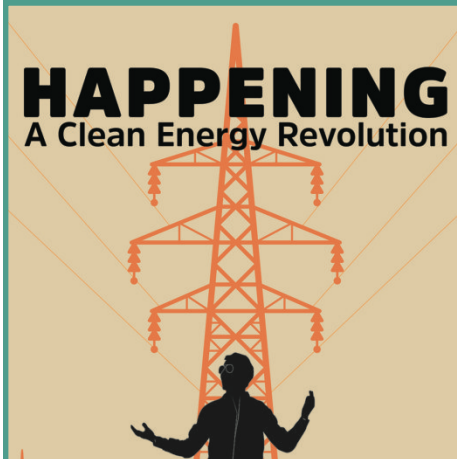

All films are screened at the COC Touring Center, 6:30 - 8:30 pm

Jan 22

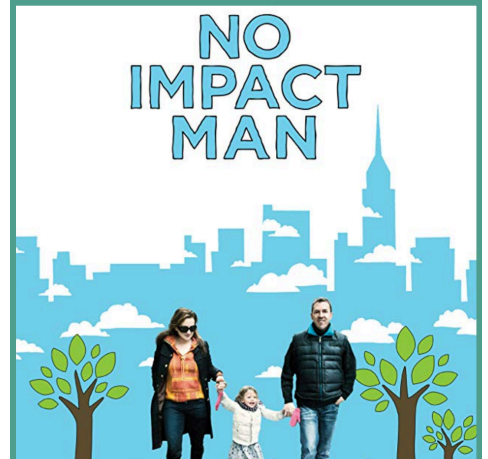

As the filmmakers pledge to survive only on food that would otherwise be thrown away, Just Eat It explores our obsession with expiry dates, perfect produce and portion sizes, and reveals the core of this seemingly insignificant issue with big consequences. Discussion led by **Theresa Snow** of Salvation Farms.

Feb 19

The clean energy revolution is quietly underway and electricity generated from wind and solar is increasingly more affordable than electricity generated from fossil fuels. So, how do we meet all of our energy needs with renewable energy? Discussion led by the **Craftsbury Energy Committee**

Mar 19

Follow a family as they forgo their consumptive lifestyle and live a year making net zero environmental impact: no electricity, no trash, no cars, no toilet paper, and no more buying new things. Discussion led by **Elly Ventura**, Outreach Manager at **Lamoille Regional Solid Waste Management District & Lamoille Soil**.
