

A PRESENTATION BY
ELOISE GIRARD

NUNAVUT, AN ARCTIC SHOREBIRD STUDY

Eloise study applied ecology in Quebec and have about 10 years of field experience working with Ducks Unlimited, Canadian Wildlife Service and different Universities. In 2013, she was hired as a contractual for Canadian Wildlife Service to spend 2 months in Nunavut, Canadian Arctic to take part of a long term study on shorebirds. She will share her experience living in remote camp and also elements that are impacting the shorebirds population.
