Ski Trail Use Guidelines

We are grateful to the many landowners who allow us to groom trails on their property. Please respect the land we ski on.

- Dogs are welcome on Fox Run and the lakes.
- Trails are two-way unless designated otherwise.
- Downhill skiers have the right of way.
- Please do not damage the classic track by skating or herringboning on top of it.
- Fatbikes are allowed on select ski trails and singletrack, under certain conditions, and must yield to all other users. See Fatbike maps for full details.
- Use caution where trails intersect and join snowmobile trails.
- Ski at your own risk.

Stay.

We offer trailside lodging from basic dorm-style accommodations to cabins, all include meals from our Dining Hall, and your day's trail pass.

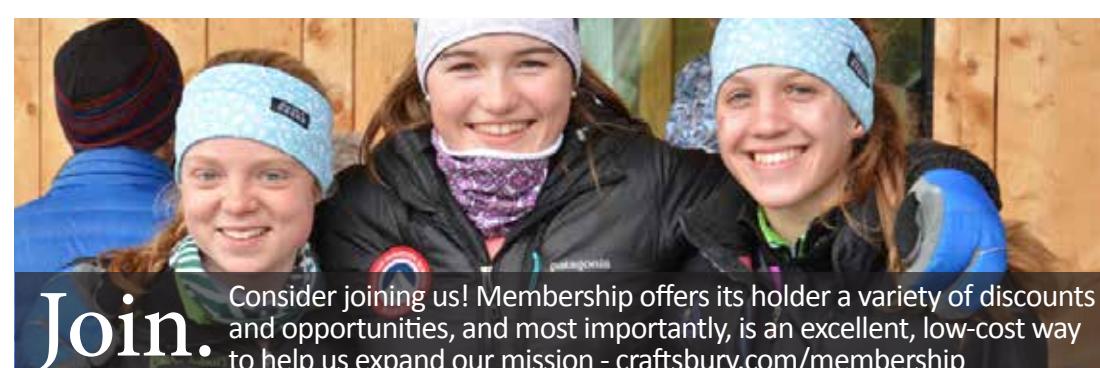

Ski.

Enjoy the trails, but there are so many ways to enjoy skiing at Craftsbury: all-ages programming, events, Highland Lodge Shuttles - check the web or ask at the TC for more info.

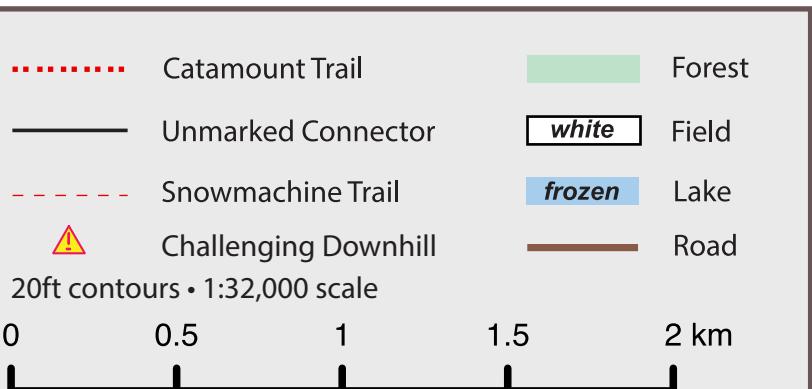

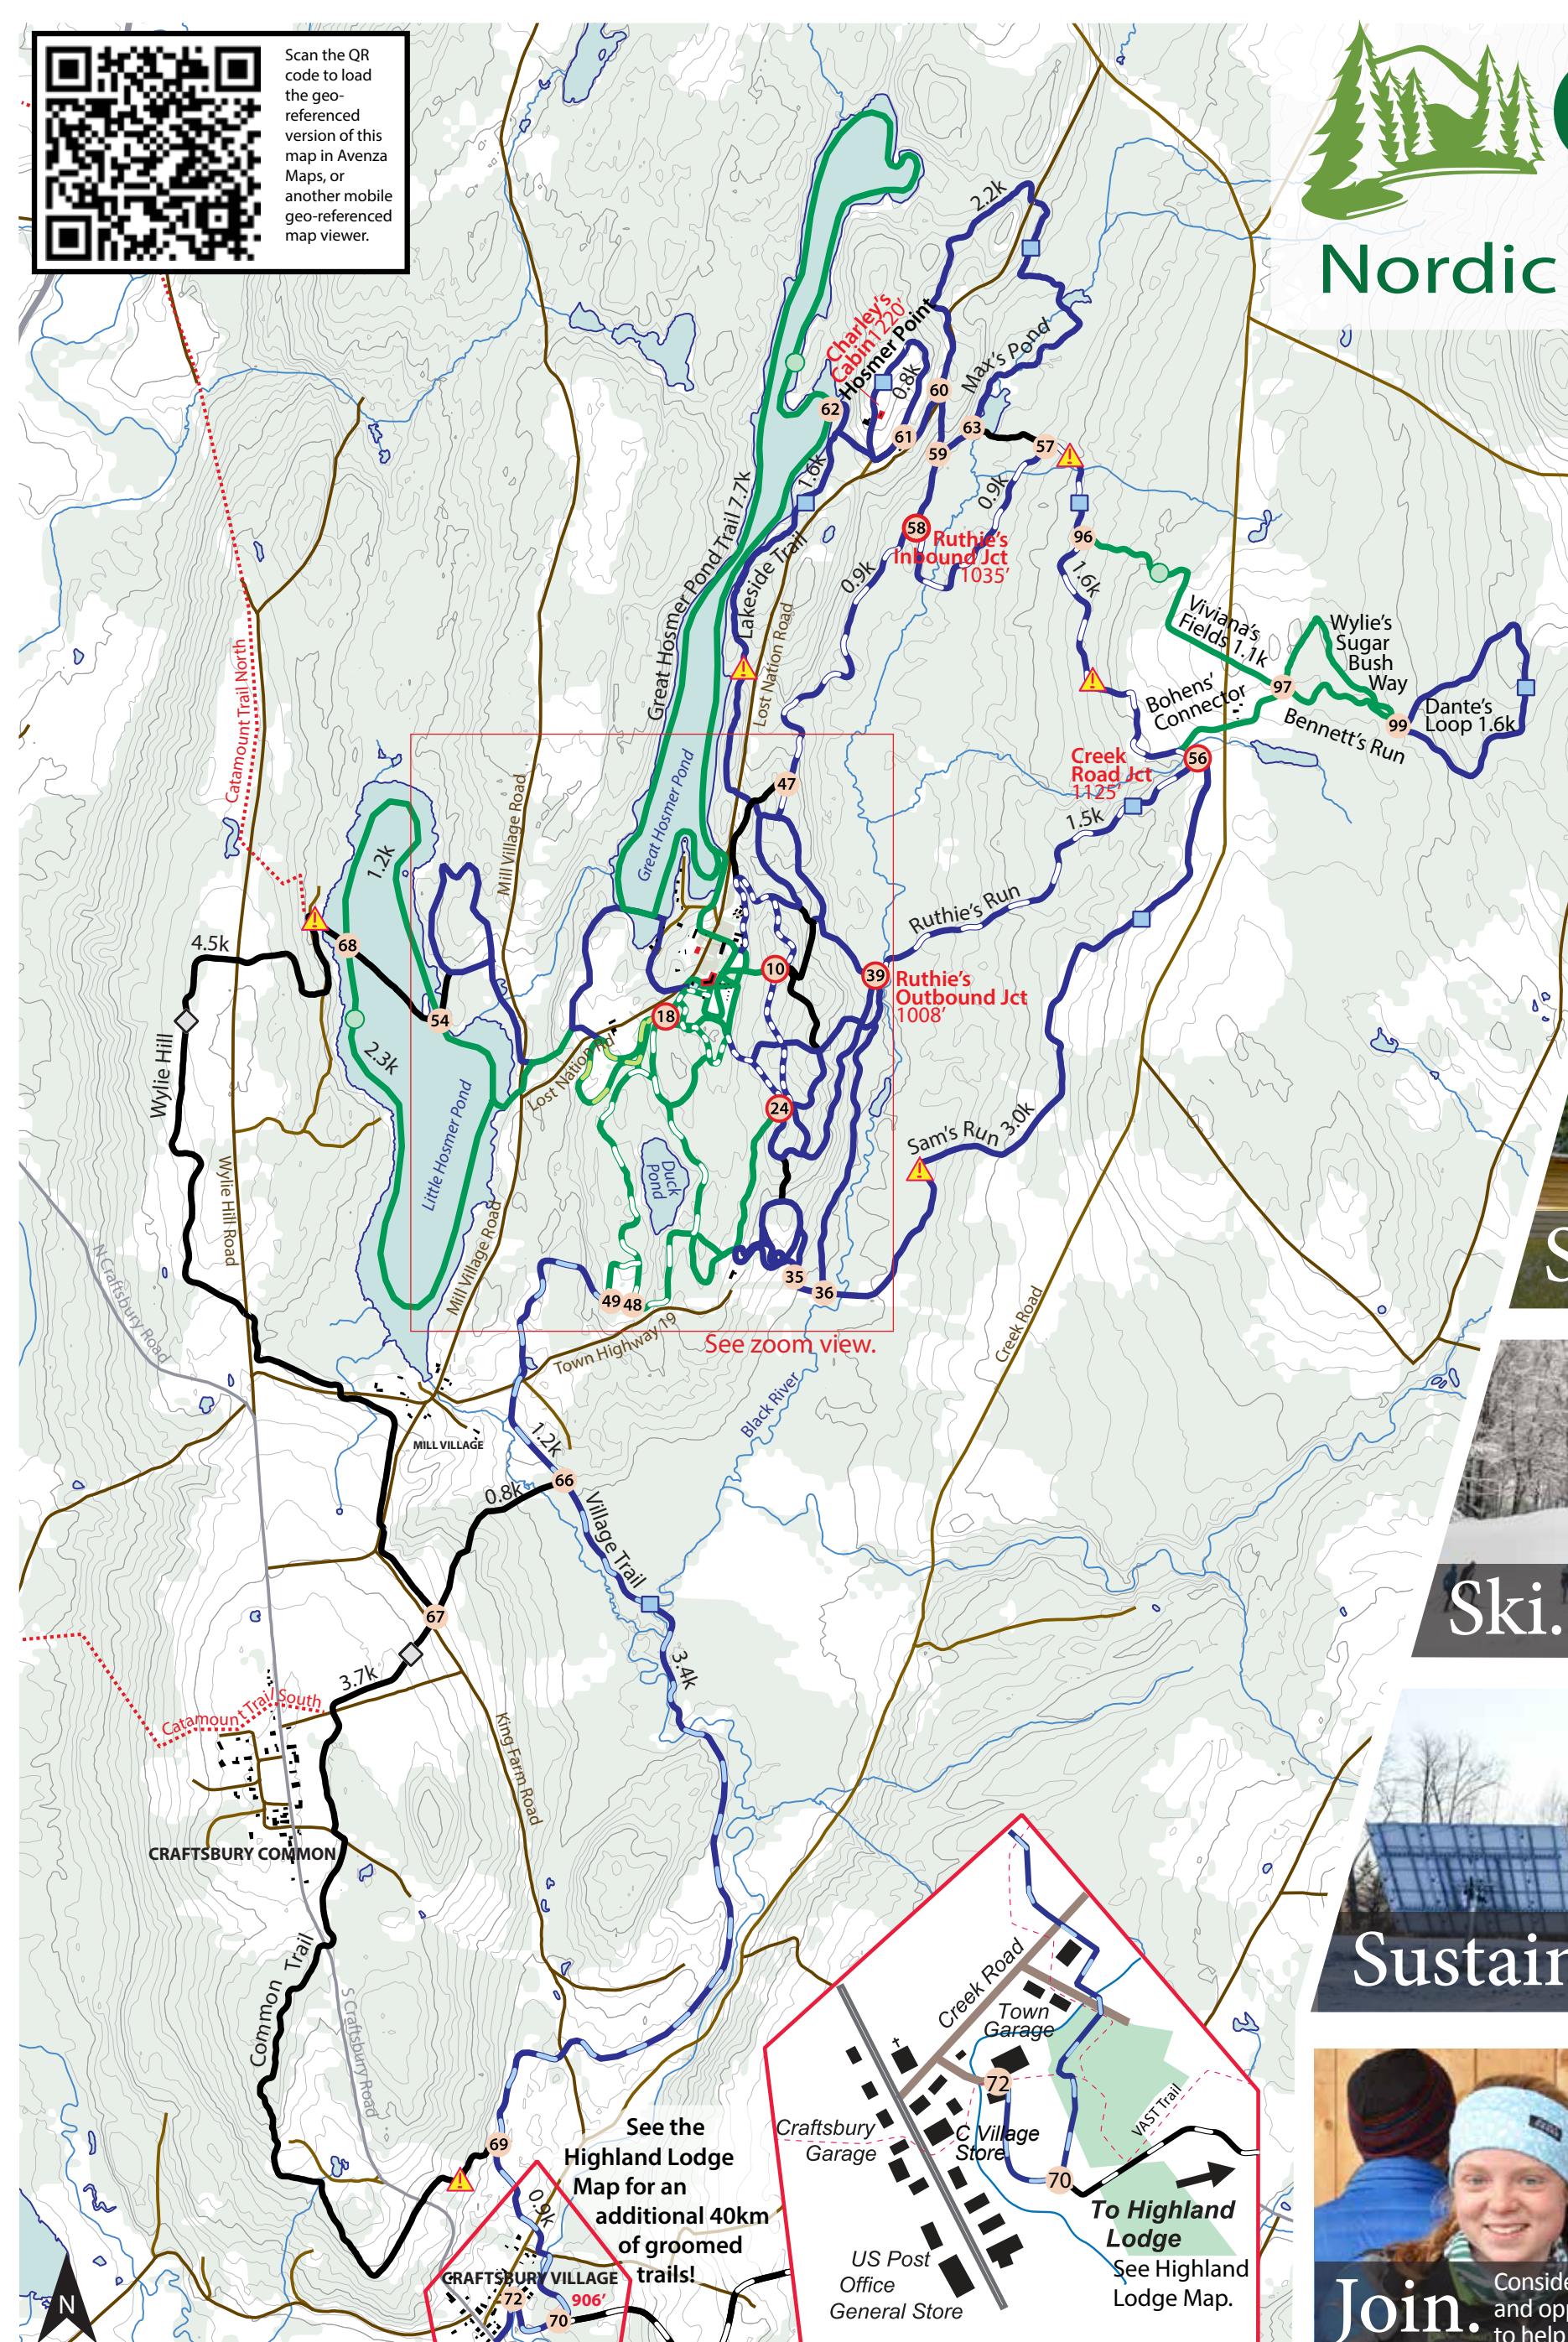

Sustain.

Our commitment to the natural world is made manifest in our net-zero Activity Center, solar trackers, waste heat recapture and more. Find more online about our efforts.

Join.

Consider joining us! Membership offers its holder a variety of discounts and opportunities, and most importantly, is an excellent, low-cost way to help us expand our mission - craftsbury.com/membership

Popular Trails: Distances here refer only to the associated dashed segment, *these are not "loop distances"* from the Touring Center.

● Round-a-bit	0.5k	□ Lemon's Haunt	1.6k	● Easier Trails
● Murphy's Field	1.0k	□ Ruthie's Run	5.8k	■ More Difficult
● Duck Pond	2.5k	□ Village Trail	5.5k	◆ Most Difficult

The trail ratings are general guidelines and can vary with conditions and skier ability.
